

Environmental policy

Cipla Europe Holding BV shall act conform the environmental policy:

Cipla recognizes the importance of managing Environmental matters effectively as an integral part of its business activities. Cipla will take all practicable steps to ensure safe and healthy environment, by providing and maintaining intrinsically safe plant, clearly defined procedures, norms complying with applicable statutory provisions. For successful implementation of this policy Cipla will:

- Take full cognizance of Health, Safety and Environmental considerations in project planning, decision making and conducting time to time audit inspection programs.
- Assess and seek to minimize the impact of their business activities on the environment and communities in which their operations are located.
- Seek to achieve continual improvement in Environmental performance, for example: using lean to ensure less chemicals are being used and less waste will be created.
- Comply with applicable statutory provisions for laboratory concerning Environment.
- Investigate all environmental incidents and implement the recommendations to avoid re-occurrence in the laboratory.
- Develop and maintain appropriate Emergency response and contingency plans.
- Inform, educate, train and retrain the employees and contractors to ensure safe working conditions for everyone in the laboratory
- Motivate employees to participate in Environment related activities with the objective of achieving the standard in Environment.
- Consider the Quality and environmental aspect of equipment or material during procurement

Cipla's environmental policy prevents pollution by eliminating or reducing, as far as practicable, all risks to the environment.
